I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: The compounded prescription I use has made a vast difference in the quality of my life, consequently affecting those around me as well. This medication was not available locally (that I could find), so I purchase it from an out-of-state pharmacy. If my medicine becomes unavailable to me, my symptoms will become very debilitating, grossly affecting me and my family. Please do not adopt this memorandum so that persons like myself can still obtain compounded prescriptions that work!
